

# ACI Aggregate Testing Technician

An Aggregate Testing Technician – Level 1 is an individual who has demonstrated the knowledge and ability to properly perform, record, and report the results of basic field and laboratory procedures for aggregates.

This program requires a working knowledge of the following AASHTO/ASTM Standards: sampling aggregates, reducing samples of aggregate to testing size, materials finer than 75-um (No.200) sieve in mineral aggregates by washing, sieve analysis of fine and coarse aggregates, specific gravity and absorption of coarse aggregate, specific gravity and absorption of fine aggregate, total moisture content of aggregate of drying, organic impurities in fine aggregate for concrete.

Those meeting the ACI requirements of passing both the written and performance exam will be granted certification.

- Prerequisites: None
- Fees: Dependent on number of students per class
