

ARM YOURSELF

Get the networking and informational support you need to increase sales to aggregate and ready mix producers.

Join ARM today!

Networking. You will not find an organization that offers as many opportunities for face-to-face interactions with decision-makers at aggregate and ready mix companies. We host a Minnesota Wild event, the Concrete Open, a summer board meeting and golf outing, and the annual ARM convention.

Information and Advocacy. ARM stays on top of industry trends and changing technologies for aggregate mining, ready mix production, and regulatory compliance. We regularly share this with members through our e-newsletter, print newsletter, webinars, website, and annual convention. And we vigorously represent you at the legislature.

Promotion. ARM is initiating a forceful, synergistic promotional campaign this year that will result in more concrete-related projects for producers and related business for you in the next few years.

We offer these specific benefits to our associate members: choose any two in the coming year.

- 1) A Q & A feature article about a company project or person in our print newsletter.
- 2) Your logo and short feature on the associate member web page.
- 3) Up to two post card mailings to members (we'll mail and even design it for you).
- 4) Your company name and a link to your website on the ARM home page.

For associate members

5) An ad in our e-newsletter, the Member Update.

6) \$50 off a convention tabletop at the December convention.
